

Bio:

ALARD DE SMIDT

DIRECTOR OF PHOTOGRAPHY

Alard worked his way up the traditional route eventually operating for the legendary Keith Rose on the best South African and international commercials, from there he went on to become a successful DP in his own right. He's shot Petronas ad's with the Mercedes F1 team, the music video Makeba by Jain in 2015 which recently gained popularity on social media with over 227 million streams!

Alard is always ready to try something new and more recently his path has led him to doing more table top, food, liquid and faster frame rate work.
