

# NHLAKANIPHO BRAIN BUTHELEZI

FOCUS PULLER  
CAMERA OPERATOR

## Biography :

Brain started working in the film industry after graduating from film at the University of Johannesburg in 2015.

He has been able to work with some of South Africa's best DOP's and gained valuable knowledge to blossom in the right direction.

His fighting spirit and love of learning are his two pillars of strength and are sure to keep him grounded, even in difficult situations.

He has experience on commercials, short films, documentaries, dramas and reality shows.

Brain's first love is documentaries and is constantly reminded of his drive to educate through film.

"Documentaries are a powerful capsule reflecting the true nature of society," he says. One of his favorite jobs is a documentary he worked on along with one of his mentors Bonga Nkomo out in Namibia. He said it was refreshing to see how lives were being changed throughout the continent for the betterment of African people. That job made him want to produce his own documentaries one day.

Every set is a learning curve and he is getting closer to being DOP and producer. His advantage is that he is always learning. On or off set.
