

A professional cinematographer, FW Stark, is shown operating a large ARRI Trinity camera on a golf course. He is wearing a blue cap, a blue shirt, and a black vest with "TRINITY" written on it. The camera is mounted on a Steadicam system. In the background, there are two large white reflectors on tripods, a bright light source, and a green golf course under a blue sky with clouds.

FW STARK

DOP
STEADICAM OPERATOR
ARRI TRINITY

ABOUT

After his tertiary education, FW started working as a runner- in Cape Town. Growing up, both his parents were producers, in the film industry.

He then became a studio manager, in Johannesburg, - at "Global Access" studios. Thereafter, he went into audio post-production, followed by data wrangling. Audio "on set" recording was next. Focus pulling was the next challenge, whereafter he was fortunate enough to be trained by, Johann "Skip" Scheepers, on camera, and as DOP.

FW then decided to go get some International "Steadicam" training, by Garret Brown, Jerry Holway and Chris Fawcett. After many years, he decided to purchase an "ARRI Trinity", and travelled to Germany- where I received training from "Kurt Schaller".
