

RYAN SHEPPARD

DIT/VT

Bio:

As great as Head of Post-Production & Data at Ludus was, I left to take an entry level job in a post house to learn more about my craft and the industry standards. During my time there I learned about relations and how to work as a team which of course led me to my true passion of being part of an on set crew. I am equipped with the knowledge to localise footage from set right through to broadcast, visually portray an idea for a client and have enough technical experience to identify problems quickly and to create a solution swiftly and efficiently.
