

## BIO:

WD rapidly ascended the ranks in the film industry, thanks to his strong work ethic and innovative thinking, quickly becoming a sought-after Key Grip. At the end of 2021, he decided to take a chance on the season in Cape Town and, alongside his family and team, chose to make it his permanent home. Together, they founded IR Grips, a company dedicated to enhancing the filmmaking experience.

When WD isn't on set, he and his team are hard at work dreaming up, creating, and building rigs designed to make filmmaking easier and more fun and safe. This commitment to innovation reflects WD's passion for his craft. He truly speaks, lives, and breathes grips, embodying a lifestyle that revolves around creativity and collaboration. His dedication not only benefits his work but also elevates the projects he contributes to, making him a valued asset in any production.
