

# Mpesh Mkonza

DIT/VT

“ I started my journey in the entertainment industry working with comedian David Kau. I'm a lover of art, travel, architecture, stage theatre, and a serious music enthusiast.

Early on, I worked as both a camera operator and camera assistant for live performance shows and major concerts — and that's where my love for the industry really took off.

My professional growth began at Bomb Commercials, where I started out as a PA. That experience exposed me to legendary crew members and set the foundation for everything that followed. Eventually, I found myself drawn into the world of VT (Video Take Off / Visual Transmission) and DIT (Digital Imaging Technician).

Every moment on set is a learning experience — and it only gets more exciting when you're surrounded by the best in the game. ”
